

C-A Statement on Ozone Depleting Chemicals.

To alleviate depletion of the stratospheric ozone layer, C-A is committed to insuring that it's operations reduce the use of ozone depleting chemicals, where practical, and minimize the emissions of these substances to the atmosphere. Preference shall be given to alternative chemicals, products and processes that reduce overall risks to human health and the environment by reducing the depletion of ozone in the upper atmosphere. C-A shall recover, recycle and conserve ozone depleting substances and minimize emissions of these substances beyond regulatory requirements, where practicable
