Group Procedure EPS-S-019
Revision 00**

PROCEDURE FOR DISPOSAL OF HAZARDOUS WASTE

1. All items placed in the area must be labeled with the following information:
 - a) Your name
 - b) What the waste is and where it used.
 - c) The 4 diamond Hazardous waste label

2. Do not add to containers.

Only mix waste that is the same. Do not mix mixed waste. (e.g. two different types of oil). If you are not sure, start a new container and we will dispose of it separately.

3. All items must be logged in the Hazardous waste logbook, information included should be.
 - a) Your Name
 - b) Date
 - c) What the waste is?
 - d) Location of the waste origin
 - e) The process that generated the waste.

4. All items need secondary containment
 - a) Please place all items in white trays.

If there are any questions, contact Chris Watts, pager 7246 or Michael Bannon pager 4224
