# Memo

*Date:* August 30, 2007  
*To:* DISTRIBUTION  
*From:* J. Scott  
*Subject:* Safety Walk

---

On August 29, 2007 a Safety Walk observation of Work Request # SS2007-271, loading of two Intermodals of 912 soil pile and transport to rail siding was performed. Work was performed in accordance with #SS2007-271 work request and RWP C-A 07-706 guidelines.

#### Safety Walk Attendees

L. Campione (C-A Waste Tech., EWMSD)  
J. Scott (C-A Environmental Coordinator)  
A. Anderson (PE Rigger)  
R. Johnson (PE Hemo)  
J. Tobbaco (PE Rigger)  
K. Kropp (FS Tech.)

#### Positive Observations

Pre-job briefings of work request and RWP to review tasks and hazards.  
PPE available and used correctly at all times during work (Gloves, safety shoes, hard hats)  
Road blocked to traffic during loading in 912 yard.  
Pre-use inspections of crane, fork-truck, slings and shackles, and flat-bed used for transport performed prior to use.  
Escorts of flat-bed to railroad siding and adherence to Transport safety document.

#### Negative Observations

Supervisor did not inform Fire Group of temporary road blocking prior to start of work.
